

Welcome to Geiranger 2020

Thank you for joining us on our Ålesund – Geiranger Fjord Cruise #3fjords3hours

We would like to offer you a couple of suggestions on what to do in our lovely village by the fjord.

As you disembark MS Geirangerfjord II, you will be in the heart of Geiranger. A small village that is located at the end of the Geirangerfjord in the county of Møre og Romsdal, we have around 220 inhabitants but over the course of summer we welcome around 800,000 visitors to this UNESCO World Heritage site.

One of our favourite things to do is experience the great outdoors and with 2.5 hours here, that's plenty time to take in a lot of the natural beauty that surrounds us.

Start your journey by taking the small pedestrian street, filled with old wooden boat houses. These are now many different businesses, one you might find interesting is the little artisan chocolate factory. The chocolates are handmade onsite in the temperature-controlled basement of the shop and café, using undoubtedly Norwegian flavours such as blueberries, cloudberries, brown cheese and aquavit!

Now you are happy with something sweet it is time to tackle the mighty Waterfall Walk, Fossevandring. The walk up is 327 steps but with plateaus and high airy viewpoints, there are many places to stop, catch your breath and take some spectacular photographs.

At the top you can reward yourself with a visit to the Norwegian Fjord Centre, with its exhibitions covering the geology, natural history and cultural development of our unique UNESCO fjord and community it's a must do for the whole family. Even if you do not go inside, the architecture itself is well worth a visit!

Walk back down by the roadside to take in the scenery from a different perspective, visit the octagonal wooden church which dates back to 1842 and has around 200 capacity. By the time you have completed this, you will be in perfect time to catch the boat back to Ålesund!

Other options include, renting an E-Bike from us. You can tackle the up hills to see the stunning views while staying relaxed, you will not even break a sweat! We offer e-bike hire of top quality electric mountain bikes and city bikes right in the centre. From there you can pedal along the fjord or to one of the famous viewpoints in the mountains, like Eagle Bend or Flydalsjuvet.

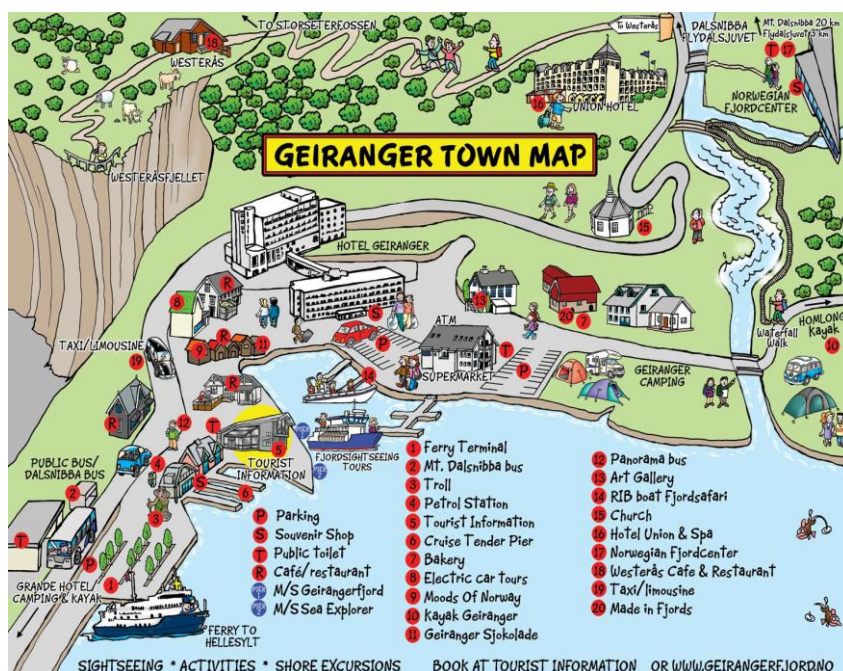

2 hour rental	320,- nok
---------------	-----------

Explore Geiranger by renting one of our fun little electric cars, for 1 hour, this is guaranteed to make you smile 😊 With the in-car GPS system you can take a guided tour around the village.
